

## EXCITING OBGYN PRACTICE OPPORTUNITY

Busamed Paardevlei Private Hospital in Somerset West opened its doors in May 2015. The hospital is housed in a modern, state-of-the-art building, and boasts modern healthcare technology to aid in the treatment of patients.

Busamed Paardevlei Private Hospital hosts the following wards and services: Cardiac Catheterisation Laboratory, Cardiac ICU, General ICU, High-Care, Maternity and Neo-natal ICU, Operating Theatres, Day, Medical, Paediatric and Surgical Wards.

The medical disciplines available at our facility includes Cardiology, Cardiothoracic Surgery, 24 hour Emergency Centre, General Medicine, General Surgery, Geriatrics, Orthopaedic Surgery, Paediatrics, Plastic Reconstructive & Aesthetic Surgery, Rheumatology, Spinal Surgery, Urology and Cardiac Electro Physiology Services. These disciplines are supported by on-site pathology and general and specialised radiology.

An opportunity exists for a dynamic, energetic obgyn to establish a practice at our facility and work with us to develop the obstetrics and gynaecology services. While we have beautiful, modern and fully equipped maternity and neonatal wards, we require a resident OBGYN to help establish the service.

Should you be interested in exploring this opportunity further, please contact our hospital manager, Yaseen Harneker on (021) 840 6603 or at [yaseenh@busamed.co.za](mailto:yaseenh@busamed.co.za)

For more information on our facility and available services, please visit our website [www.bpph.co.za](http://www.bpph.co.za)
